

M. HANNA, SR. PASSES AWAY

President of Earlington Machine Works Succumbs to Paralytic Stroke

THE END CAME SUDDENLY

Mr. Michael Hanna, founder and president of the Earlington Machine Works, died at his home in this city Saturday night at 9 o'clock of paralysis. Mr. Hanna returned on Friday morning from a business trip to Hopkinsville, seemingly in better health than he had been for many years, but on Saturday morning at 8 o'clock the family were awakened by a noise from his room and found him suffering from a paralytic stroke, which was the third one within the past few years. All was done for him that medical skill could do but he sank rapidly and passed away on the evening of the same day. Mr. Hanna was a man of unusual energy and could have chosen the end this way would have been as he wished for he chafed under inactivity, and while the shock to the family was almost unbearable, they find consolation in this thought.

Michael Hanna was born in the beautiful city of Vienna, Austria, in the year 1841 and at the age of 13 years took up his life's work, that of an iron foundryman. At the age of 18 he enlisted in the Austrian army and served until he came to America twelve years later. He then settled at LaPorte, Indiana, and the same year was married to Miss Teresa Weidman, a native of Bavaria. Of this happy union ten children were born, eight daughters and two sons, all of whom are surviving their mother and father but two, Mrs. J. P. McElfrick, and still another daughter, Teresa, who was drowned while skating about twelve years ago. The surviving children are: Miss Cecelia Hanna, secretary of the Earlington Machine Works; Michael Hanna, Jr., general manager; Mrs. John Brien, of Evansville; Miss Alma Hanna, who is a trained nurse in St. Thomas Hospital, Nashville; Miss Antoinette Hanna, who holds a responsible government position in Tacoma, Wash.; and Misses Amelia and Veronica Hanna. John, the youngest son, is a student at Norte Dame University in Indiana. All came home to pay the last sad rites to their beloved father, except Miss Nettie, who was unable to reach here on account of the great distance.

Funeral services were held at the church of the Immaculate Conception, of which he was a devout member, on Monday morning and was attended by a large number of sorrowing relatives and friends. Rev. Father O'Connor, of Louisville and Walsh, of Hopkinsville, conducted solemn high mass, which was followed by burial in the Earlington cemetery. The pallbearers were: Messrs C. M. Henry, Thos. Blair, Dan Umstead, Douglas O'Brien, Dr. W. K. Nisbet and A. G. Spillman, six of his special friends.

Mr. Hanna was well and favorably known both in Hopkins and Christian counties where he has made his home for many years, coming to Earlington from Madisonville many years ago, where he has since resided continuously. He was an interesting talker and his reminiscences of the old country were a delight to his friends. Whenever he was ill he always used his native language which sometimes proved quite puzzling to members of his family.

The floral emblems, which were many and beautiful, were a mute evidence of the esteem and friendship held for this departed citizen by our

LOCATION FOR CHAUTAUQUA

School Grounds May Be Ask For By Committee

THOUGHT TO BE IDEAL LOCATION

The probable location of the Chautauqua tent for the Earlington Chautauqua season is being discussed by the committee of guarantors and it is probable that the Earlington School Board will be asked about location on the School grounds on the Main street front, which some consider to be an ideal place and quite centrally located. Another argument advanced in favor of this suggestion is that, should any stormy weather come the Chautauqua could quickly be housed in the auditorium of the school building. Much interest is being manifested in the proposition season of Summer entertainment which Earlington is to have this year for the first time.

The feature of the evening was trying to go home. The inner door became fastened in some manner and it was found impossible to open it, so the members found it necessary to leave by way of the transom. Judge Cowell, Capt. Price and J. H. Fish especially were graceful in their exit, while the members of less avordupois were more fortunate in going thru the small place.

AT THE END OF THE RAINBOW

High School Favors the Public with a Three Act College Comedy

AT TEMPLE THEATRE MAY 23RD

The scenes of the play are located in a college town. The students are practicing for a football game with a rival college team and much interest in the outcome is shown. It develops that Douglass Brown, a football expert from another college, is in town on business connected with his father's estate and to distract attention enters this college. Phyllis Lane induces him to consent to play with the team at the request of the captain, a love romance being created thereby.

Robert Preston, a lawyer, secretly loves Marion Dayton, his ward, and she reciprocates. He intrusts the combination of his safe to her and tells her of a packet of important papers lying therein. Louise Ross and her mother, Mrs. Brown, stepmother of Douglass, learn that a second will disinheriting them has been found and is among the papers in Preston's safe. They plot to obtain possession of the document at a masked ball given by Marion. Louise wears a costume identical with that of Marion's, deceives Preston, learns from him the combination of the safe, obtains the papers by the aid of Jack Austin, unaware of the fact that the original packet has been removed by Preston and other documents substituted. The "Imp," a girl student, sees and recognizes her.

Preston enters and recognizes, Jack, who is assisting Louise in the belief that she is Marion, and convinced that Jack meditates robbery, upbraids him. Marion enters and comprehending the situations as she fancies, she shields Jack by assuming the guilt. Her innocence is finally established by the "Imp," who exposes Louise. Meanwhile Douglass wins the game for the team and realized that he loves

Working only a few hours in a tun-
nel, on the Louisville and Nashville
Railroad in Laurel County, Leadner
Thomas was crushed to death beneath
a cave-in of rock, and his estate re-
covered a verdict of \$4,000 for his
death. The Appellate Court at Frank-
fort affirmed this judgment in the case

not sufficiently acquainted with the

prior to her marriage. Mrs. Wilson
was the sole heir of the deceased.

A petrified stump was found in one
of the Marrowbone Coke Company's
coal mines at Rockhouse, near Pike-
ville. It was discovered on top of a
coal vein 2,800 feet from the mouth of
the mine and at a depth of 500 feet.
The stump, which is three feet in
diameter and two feet high, is intact
roots and all, and is well preserved.
It is so hard that it resists the heat
tempered steel tools. A feature of
the discovery was two petrified seeds,
resembling peach-stones, on top of the
stump. The stump shows that it was
cut off by a sharp instrument, the se-
verance being clean. The prehistoric
find, which is an object of much curi-
osity, is on exhibition.

Adequate preparedness for national
defense demands the abolition of the
alcoholic liquor traffic, according to
the official call for the Kentucky pro-
hibition party, issued by Chairman
Francis Beauchamp, at Louisville. The
United States will never be really pre-
pared to defend itself against aggres-
sion "while nine-tenths of our young
men are rendered physically unfit for
service by the destroying influence of
the liquor traffic," the call says. The
prohibition convention will meet in
Louisville May 24 and 25. Delegates to
the national convention will be elect-
ed. Leaders of the party declare that
plans are being made for an aggressive
campaign.

Perhaps one of the largest poplar
trees ever marketed in Kentucky has
just been cut, manufactured and load-
ed at Kona Station, near Whitesburg,
by the Coeburn Lumber company, for
shipment to Cincinnati dealers. The
big tree in question was ten feet in
diameter at the butt and was over
300 feet to the first limb. When sawed
it cut out 12,700 feet of first class lum-
ber; 6,000 feet of other grades—in all
nearly 19,000 feet. The tree was cut
from the Sam J. Wright timber tract
high up in the Cumberland mountains,
not far from the Virginia border line.
It required ten large teams of oxen to
"snake" the logs to the mill. The com-
pany paid \$760 for the big tree, and it
is said, will make money on the pur-
chase.

National Defense and International Peace

Are You Ready to Play Your Part?

THE power of a nation in time of need is the pro-
ducing power of her industries.
America must find out what this producing power
is and then develop it. The capacity of every plant
must be gauged. The ability of every man must be known.
For War is Mechanical. It is Electrical. It is Chemical. It
is Mining. Manufacturing. Transportation. It is EVERY
phase of Engineering fused into a single industry—
"THE NATION'S DEFENSE."

Thirty thousand Engineers today are serving YOUR COUNTRY
without pay. They are making a survey of YOUR COUNTRY'S indus-
trial resources. They are helping YOUR COUNTRY to FIND ITSELF
—and You! They are charting the channels of commerce. Sounding each
source of supply. So that, should the Day break when War must come—
YOUR ARMIES in the field will be but the crest of a Wave of in-
dustry, as wide as the American Continent and as deep as the American Soul.
That YOUR COUNTRY may know what the Engineers are doing,
the Associated Advertising Clubs of the World have pledged their services to
the President of the United States. And this advertisement, published free
by this paper, is part of a nation-wide series to secure YOUR co-operation
with the Engineers. "WHAT CAN I DO?"

This is, doubtless, the question you are asking yourself. Here is the
answer: If you are a manufacturer co-operate fully with the Engineers so
they can do their job quickly and efficiently. If you are a working man
help your employer to help the Engineers and be prepared, if so needed, to be
a Soldier in Industry, behind the firing line, which is just as important as being
a soldier on the firing line; if you are a business man or a professional man,
or whoever you are, help mobilize "GOOD WILL" behind this patriotic
task of the Engineers in behalf of National Defense and International Peace.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Carroll, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its tiring me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

Thirty-three Night Rider Cases At Madisonville Continued

The largest crowd seen in the court house for years was present during the course of the trial. The negro pleaded self-defense and was defended by Attorney John Feland, of Hopkinsville. Witty has been in the Hopkinsville jail for safe keeping since the crime and was brought back here this morning.

"When my daughter had whooping cough she coughed so hard at one time that she had hemorrhage of the lungs. I was terribly alarmed about her condition. CHEERS AND TEARS FOR "COMPANY I."

The following is taken from the Mineral Wells Index: Capt. Eldred A. Davis is an old Earlington boy and has a large number of friends here who are interested in his movements.

At 7:25 o'clock this morning Co. I, Fourth Texas Infantry, Captain E. A. Davis commanding, left for San Antonio. The roster numbered eighty men, including two who reported by phone for service from Fort Worth last night and were ordered by Captain Davis to remain there until the company arrived this morning. These two were Roy Roberts and Roy Dunn.

There were perhaps two thousand people at the station to bid the soldier boys farewell and God speed. Mothers, sisters, wives, children and friends of the enlisted men were present.

As the company came marching to the station Prof. Woodward's band struck up the air of "Dixie" and a cheer went up from the entire assembly that woke the sleeping echoes of the mountains. As the boys entered the cars the touching farewells of loved ones brought tears to many eyes.

In an interview with Captain E. A. Davis this morning just before leaving The Index was requested to express to the people of Mineral Wells for him the high appreciation of the company, officers and men, for the courtesy and kindness uniformly extended since the order came for border service. Captain Davis stated that Company "I" would be looked after carefully in their absence, and in view of the fact that some of the enlisted men were leaving homes, wives and small children to answer the call of their country in protecting its interests and its honor, he hoped that the good people left behind would make it a point to see that no suffering came to the families of any enlisted man during their absence.

The Index takes pleasure in giving publicity to these statements and requests of Captain Davis, and feels sure that every man's family will be looked after properly should necessity arise.

THE MAN WITHOUT A COUNTRY

Has a Home at last—Died in a New York Sanitarium

The troubles of Nathan Cohen "the man without a country" are over, the unfortunate man having died a few days ago in a sanitarium near New York. Several years ago Cohen came to the United States from Brazil and engaged in business at Baltimore. According to the alien law an immigrant who becomes a public charge within three years of landing must be taken to the country from whence he came. Cohen was deported, but the Brazilian authorities would not accept him, so he was sent to Argentina, where he was refused landing. Then followed a process of deportation, keeping the man upon the high seas, sailing back and forth between North and South America. The steamship company tried to wish the man onto Russia, which was his native land, but the Russian authorities refused to take him back. Finally the Knights of Pythias discovered that he had joined their order, and through their intercession, the immigration authorities were prevailed upon to permit Cohen to land, and he was taken to a sanitarium, with the provision that he be deported after the war.

Best Thing for a Bilious Attack

"On account of my confinement in the printing office I have for years been a chronic sufferer from indigestion and liver trouble. A few weeks ago I had an attack that was so severe that I was not able to go to the case for two days. Failing to get any relief from any other treatment, I took three of Chamberlain's Tablets and the next day I felt like a new man," writes H. C. Raily, Editor Carolina News, Chapin, S. C. With the women in the British isles outnumbering the men by 2,100,000, what would you consider a fair market price for a husband?

UNCLE JOE'S BIRTHDAY

Joseph G. Cannon is eighty years old, and on the occasion of his recent anniversary an important legislative program was laid aside in the House of Representatives in order that two hours might be devoted to a remarkable ceremony in the way of a personal tribute to the oldest Congressman alive. He is called "Uncle Joe" in Washington, and there is a tone of genuine affection evidenced toward the kindly old man who is hardly willing to admit, but nevertheless must realize, his footsteps are tottering. Mr. Cannon is one of the most remarkable men of the age, and he led the old time machine politicians on to many an inglorious triumph. It was a revulsion against the methods that were popular in his day that did more than anything else toward establishing a new order of political thought and action in the United States. And yet no one holds any animosity toward the Representative from Danville, for in his long career he has always been zealous and jealous of his country's interest and honor. Withal, Uncle Joe's constituency and his colleagues in Congress like him most for his own sake, and the tribute paid to him was entirely personal, and in no wise an endorsement of his brand of statesmanship.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by consultation of a specialist. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

How Mrs. Harrod Got Rid of Her Stomach Trouble

"I suffered with stomach trouble for years and tried everything I heard of, but the only relief I got was temporary until last spring I saw Chamberlain's Tablets advertised and procured a bottle of them at our drug store. I got immediate relief from that dreadful heaviness after eating and from pain in the stomach," writes Mrs. Lydia Harrod Fort Wayne, Ind. Obtainable everywhere.

There are times, forsooth, when the wisest thing we can say is to say nothing. And that, generally, is when we talk the loudest.

Health for Sick Women

For Forty Years Lydia E. Pinkham's Vegetable Compound Has Been Woman's Most Reliable Medicine—Here is More Proof.

To women who are suffering from some form of woman's special ills, and have a constant fear of breaking down, the three following letters ought to bring hope:—

North Crandon, Wis.—"When I was 16 years old I got married and at 18 years I gave birth to twins and it left me with very poor health. I could not walk across the floor without having to sit down to rest and it was hard for me to keep about and do my work. I went to a doctor and he told me I had a displacement and ulcers, and would have to have an operation. This frightened me so much that I did not know what to do. Having heard of Lydia E. Pinkham's Vegetable Compound I thought I would give it a trial and it made me as well as ever. I cannot say enough in favor of the Pinkham remedies."—Mrs. MAYME ASBACH, North Crandon, Wis.

Testimony from Oklahoma.

Lawton, Okla.—"When I began to take Lydia E. Pinkham's Vegetable Compound I seemed to be good for nothing. I tired easily and had headaches much of the time and was irregular. I took it again before my little child was born and it did me a wonderful amount of good at that time. I never fail to recommend Lydia E. Pinkham's Vegetable Compound to ailing women because it has done so much for me."—Mrs. A. L. McCASLAND, 609 Hlave St., Lawton, Okla.

From a Grateful Massachusetts Woman.

Roxbury, Mass.—"I was suffering from inflammation and was examined by a physician who found that my trouble was caused by a displacement. My symptoms were bearing down pains, backache, and sluggish liver. I tried several kinds of medicine; then I was asked to try Lydia E. Pinkham's Vegetable Compound. It has cured me and I am pleased to be in my usual good health by using it and highly recommend it."—Mrs. B. M. OSGOOD, 1 Haynes Park, Roxbury, Mass.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.
